GRENOBLE ENERGY CONVERSION & STORAGE WINTER SCHOOL 2021

engine2021.sciencesconf.org

engine2021@lepmi.grenoble-inp.fr

The 2nd edition of **ENGINE2021** winter school will take place in **Grenoble** (France) from **Feb. 15** to **Feb. 19**, 2021. Open to graduate students, postdoc., researchers, technicians and engineers from **academia** and **industry**, the school will focus on theoretical and practical knowledge in **materials science** and **electrochemistry** for **energy conversion and storage applications**.

- **Proton exchange membrane fuel cells**
- **Hydrogen production and storage devices**
- **New generations of Lithium batteries**
- **Supercapacitors**

ENGINE2021 will offer specific **courses** in electrochemistry, topical and invited **seminars**, exhibition of **experimental works** at LEPMI laboratory, **poster** sessions, and visit of the **ESRF** synchrotron X-ray source.

Internationally-recognized Invited speakers :

Philippe Azaïs
(CEA, Grenoble)

Saïd Sadki
(SyMMES, Grenoble)

Jérôme Laurencin
(LITEN, Grenoble)

Luis Castanheira
(SYMBIO Co.)

Vincent Artero
(SolHyCat, Grenoble)

Claire Villevieille
(IRIG, Grenoble)

Patrice Simon
(CIRIMAT, Toulouse)

Aline Leon
(EIFER, Karlsruhe)

Erwan Dumont
(SAFT Co.)

ESRF Beamline
scientists

Lectures | Seminars | Practicals/Exhibition | ESRF Tour | Poster sessions

Category	Early Bird Registration Fees (20% VAT Included/prior Jan. 15 th , 2021)	Late Registration Fees (20% VAT Included)
Master & PhD Students, Postdoctoral fellows	€ 360	€ 460
Academic	€ 480	€ 580
Industrial	€ 720	€ 820
<i>Industrial (seminars only)*</i>	€ 600	€ 700

These costs include all **ENGINE2021**' activities: access to the school, courses and talks, practicals, lunches & coffee breaks, social events, **one-week public transport pass**, poster sessions, and ESRF tour.

**These costs include seminars, lunches & coffee breaks.*
